ADAXA Pty Ltd (ADAXA) is committed to protecting the privacy of users of our site. At ADAXA, we intend to give you as much control as possible over your personal information, including the registration data. As part of the normal operation of this site, we collect information from you. This Privacy Statement describes the information we collected about you and what may happen to that information.

INFORMATION GATHERED THROUGH THE ADAXA WEB SITE

ADAXA will track the domains from which people visit ADAXA and analyze this data for trends and statistics. Subject to the provisions of this Privacy Statement, ADAXA may use accumulated data for various purposes, including but not limited to marketing analysis, service evaluation and planning.

Currently, ADAXA uses personal information as a basis for notifications to users, "opt-in" emails, and in order to implement the terms of the Terms and Conditions of Use governing the website (the "Terms"). User names and email addresses (as well as any additional information that a user may choose to post) may be publicly available on the ADAXA site. When users voluntarily and publicly disclose personal information that may contain Registration Data, or otherwise post personal information in conjunction with content subject to an Open Source license, such personal information necessarily will be disclosed subject to the terms of the license. An example of such a disclosure includes, but is not limited to, a user's disclosure of personal information as part of a message posted to a public message forum, or a publicly-released software application.

ADAXA may conduct surveys of other studies of its customer base and usage for marketing and planning purposes. With respect to information collected from such surveys or studies, and in the event that responses are to be publicly disclosed, users will be notified at the time they take the survey and ADAXA will disclose only aggregate information regarding its users and not personal information identifying any specific individual. Notwithstanding the foregoing, in cases where surveys allow users to submit written comments, and where ADAXA advises users of the possibility of such disclosure at the time they take the survey, ADAXA reserves the right to disclose text information provided by any user through such a survey, provided that no personal information identifying that user is disclosed. Participation in such surveys is at the user's option; ADAXA does not conduct mandatory surveys. Circumstances under which ADAXA would publicly disclose such aggregate information include, but are not limited to, sharing survey results with the site population, providing data to ADAXA advertisers on user preferences and/or demographics, and publicizing overall usage data in press communications.
